

Review of Applied Economics (RAE)

The Review of Applied Economics (RAE) is a refereed journal published twice a year (financially supported by Serials Publications) and independently supported by an international editorial board. The journal welcomes manuscripts of general interest in all fields of economics including econometrics and financial economics. Priorities will be given to applied empirical research using primary and/or secondary data or an alternative empirical framework with an original extension. The principal criteria of acceptance are originality, rigor, practical relevance and quality. Book reviews (edited but not refereed) will be published occasionally. All submissions are subject to at least two persons peer review process.

The journal is listed in Cabell's directories and Cabell online. The journal is also indexed in the American Economic Association's Econlit, e-JEL on CD, Mathematical Reviews, MathSciNet, IndexCopernicus Zentralblatt fur Mathematik, EBSCOhost, SCOPUS, Elsevier's bibliographic database, Ei databases index, EMBASE, EMCare, CAP International, and Indian Sciences Abstract.

Submission Guidelines

1. Manuscripts for publication consideration can be mailed in duplicate or electronically (Word or PDF Format) to the editor or associate editor:

Dr. Christopher Gan
Chief Editor
Faculty of Commerce, Department of Accounting, Economics and Finance
P.O Box 84, Lincoln University, Canterbury, New Zealand
Tel: 64-3-325-2811; Fax: 64-3-325-3847
e-mail: ganc1@lincoln.ac.nz
Website: <http://www.lincoln.ac.nz/story11874.html>

Dr. Minsoo Lee
Associate Editor
Economist
Asian Development Bank
P.O. Box 789
Manila, Philippines
e-mail: mlee@adb.org

Dr. Hue Hwa Au Yong
Associate Editor
Department of Accounting and Finance
Monash University
PO Box 197, Caulfield East
900 Dandenong Rd
Caulfield East, Vic, 3145, Australia
Tel: 61-3- 9903-2024
e-mail: huehwa.auyong@monash.edu

Authors are encouraged to send an electronic version of their manuscript in MS-WORD format to expedite the reviewing process. The electronic copy should be emailed to either: ganc1@lincoln.ac.nz or minsoolee@szpku.edu.cn

2. Manuscripts are accepted for review with the understanding that they have not been submitted for publication elsewhere and if accepted will not be published elsewhere in the same form, in English or in any other language, without the written consent of the publisher. Previous presentation at conferences should be disclosed. Author(s) will be notified via email upon receipt of manuscripts. The journal does not accept responsibility for damage or loss of manuscripts submitted. **Submitted manuscripts that exceed 25 pages will not be considered.**
3. Manuscripts should be written in English, double-spaced with one inch margins, printed on one side of A4 or letter-size white paper. All pages must be consecutively numbered. Titles and subtitles should be kept as short as possible. Avoid footnotes, endnotes, and appendices. References, tables, and figures should be printed on separate pages.
4. Include a cover page as a separate file attachment (it should not be in the same file that contains your manuscript). This separate cover page must contain the following information: (i) the title, (ii) the name(s) and institutional affiliation(s) of the author(s), (iii) mailing address(es), (iv) telephone and fax number(s), and (v) email address(es). To facilitate anonymous reviews, indications of authorship should appear only on this page. Acknowledgements and information on grants received can be provided within this page.

The second page should contain the title followed by the abstract (not more than 250 words), maximum 3 key words and 3 JEL classification numbers (for example, C20, D72, and N16) and the text proper. There should be no name(s) and address(es) of the author(s) on this and the subsequent pages.

5. Figures will be reproduced photographically from originals supplied by the author. Only relevant figures and tables should be included on separate pages (should not be inserted in the text) and should be numbered consecutively in the text using Arabic numerals. Legends for figures should also be printed on separate pages. The titles and legends on tables and figures must be sufficiently descriptive so that they are understandable without reference to the text.

All wordings, graph lines and points on graphs should be sufficiently large and bold to permit reproduction when the diagram has been reduced to a size suitable for inclusion in the journal. Do not use any type of shading on computer-generated illustrations.

6. Formulae should be numbered consecutively against the right-hand margin of the page throughout the manuscript as in (1), (2), (3), etc. If the derivation of formulae has been abbreviated, the full mathematical derivation should be presented on an Appendix.

References

References in the text should appear as Randall (1990) or Luzar et al. (1993). The author should make sure that there is a strict one-to-one correspondence between

the names and years in the text and those included in the reference list. The references list should begin on a separate page at the end of the main text before tables, figures and appendices. References should be listed in alphabetical order by author's last name. Note that journal and book titles, either italicized or underlined, should not be abbreviated. References should appear as follows:

For a periodical

Rosen S., (1974), "Hedonic Prices and Implicit Markets: Product Differentiation in Pure Competition", *Journal of Political Economy*, 82: 34 – 55.

For a book

Freeman, M.A., (1979), *The Benefits of Environmental Improvement*. Washington, D.C.: Resources for the Future.

For contributions to collective works

Campbell, J.Y. and Perron, P., (1991), "Pitfalls and Opportunities: What Macroeconomists Should Know About Unit Roots," In Harris, R.I.D. (ed) 1995, *Using Cointegration Analysis in Econometric Modelling*, United Kingdom: Prentice Hall.

7. Data used in the empirical analysis should be sufficiently documented and be readily available to any researcher for purposes of replication. In the case of publicly available data sets, identification of variables used and any selection criteria for inclusion in the sample will suffice.
8. Any manuscript that does not conform to the above instructions may be returned for necessary revision before publication. Manuscripts failing to either meet the guidelines listed here, or to comply with the aims and scope of this journal, will be rejected without review. No paper will be rejected solely on the grounds of being too technical or too applied. As an applied journal targeting general readership, we ask authors to take care to motivate their work and to communicate in clarity.
9. Proofs will be sent to the author (first named author if no corresponding author is identified of multi-authored papers) and should be returned within 48 hours of receipt. Corrections should be restricted to typesetting errors; any others may be charged to the author. Any queries should be answered in full. Please note that authors are urged to check their proofs carefully before return, since the inclusion of late corrections cannot be guaranteed.

Authors should submit an electronic copy of their paper with the **FINAL version of the manuscript in MS-WORD Format**. Always keep a backup copy of the electronic file for reference and safety.

10. **Offprint charges**
In comparison to other journals, contributors to RAE do not have to pay a submission fee. RAE editorial board considers a submission fee as unfair, because the author(s) has to pay it irrespective of whether the submission is accepted or not. Instead, RAE offers contributors a fairer policy. Only author(s) whose paper has been reviewed and accepted for publication in the journal would be required to pay an offprint charge of **US\$250**. Payments should be in US funds by cheque payable to "Serial Publication."

11. Requests for Permissions, Reprints, and Photocopies

No part of this publication may be reproduced stored in a retrieval system or transmitted in any form or by any means or otherwise without the permission of the publisher

Disclaimer: *The Publisher and Editors cannot be held responsible for errors or any consequences arising from the use of information contained in this journal. As a scholarly journal, the ideas, assertions and opinions expressed therein are those of its contributing authors to stimulate thinking, discussion and research of RAE. Their publication in no way implies the agreement or endorsement of such views by either the editors and/or the publisher.*

Review of Applied Economics is a refereed scholarly periodical, published annually by **SERIAL PUBLICATIONS**.
