Student Health and Support

The Team

- The **Doctors** and **Nurses** offer a broad range of primary health care clinical skills. They work collaboratively with other members of the team to support your health and well-being.
- The **Clinical Psychologist** and **Counsellor** are both experienced at providing support, guidance and counselling for all kinds of issues that may arise during the year. These might include coping with life on campus and in a new country, balancing home, work or study.... along with everything in between!
- We acknowledge that for foreign students, living in a new environment presents unexpected challenges, so the **International Student Advisor** is available to offer practical support for any complex issue that is of concern. This may relate to insurance claims, visa issues, accommodation or other personal situations.
- The **Inclusive Education** staff offer support strategies to lessen the impact of any illness, injury or disability which may affect your learning or formal assessments during your course of study.

Aegrotat Assessments

These are available through Student Health and Support for tests, assignments, and exams for those students who have experienced impaired performance or missed a deadline due to unforeseen circumstances.

Other Important Information

Domestic Students

As Student Health and Support belongs to a PHO (Partnership Health Canterbury) it is significantly cheaper for students who make the choice to **enrol with Student Health and Support**.

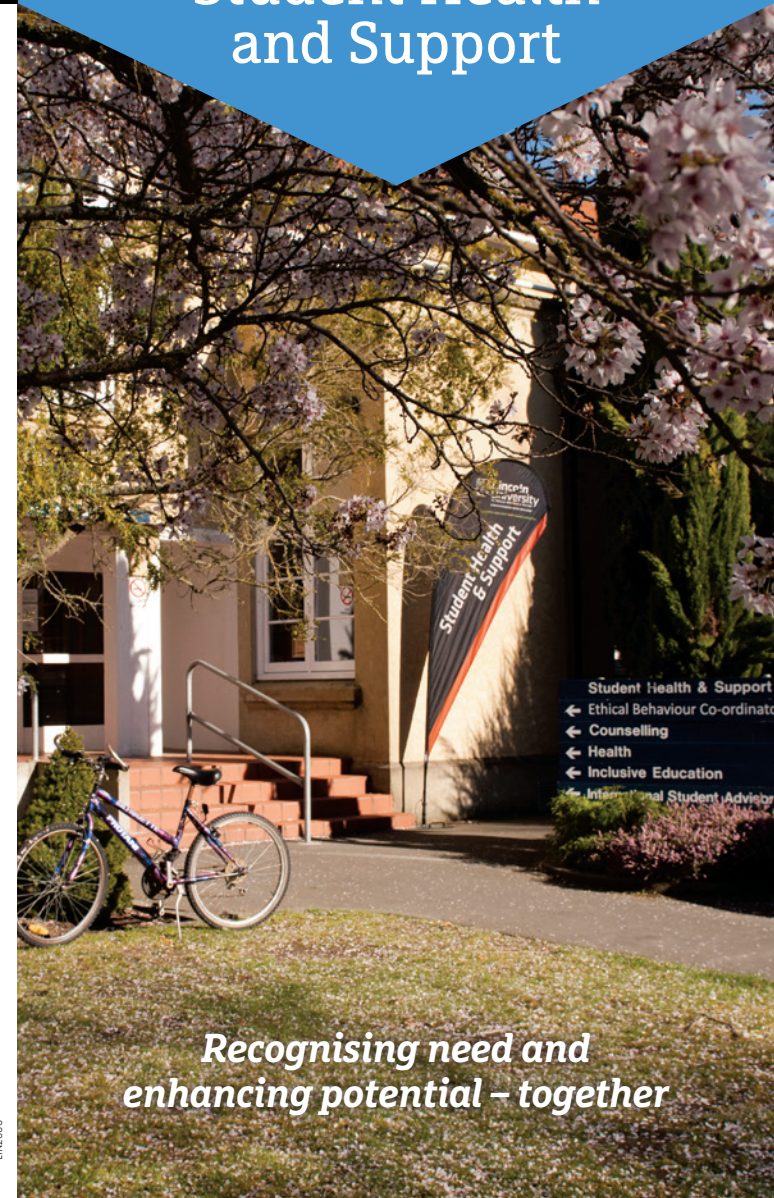

International Students

All international students are required to have insurance to cover their health needs. In some cases we can bill your insurer directly to avoid you having to pay at the time you visit us. Please carefully check your insurance policy for any exclusions such as pre-existing conditions, screening and maternity-related issues.

To Enrol

To do this you need to.....

- Complete a PHO Patient Enrolment Form or an International Student Enrolment Form, return to Student Health and Support reception or complete when collecting your library cards during registration.
- If you have any questions, visit Student Health and Support or phone (03) 325 3835.

*Recognising need and
enhancing potential – together*

Doctors, Nurses, Counsellor, Clinical Psychologist, Inclusive Education, International Student Advisor.

Student Health and Support is here to take care of all of your health and support needs. Consultations are available for the same reasons that you would see your usual health provider at home and are confidential.

These reasons may include:

- Health assessments for illness, injury, sports medicine or disability
- Health advice and education
- Medicals
- Childhood immunisations
- Sexual health/contraception
- Mental health/counselling
- Dietary advice
- Sleep disturbance
- Mole checks/minor surgery and liquid nitrogen
- Travel medicine/vaccinations.

Additional support is available and covers:

- International student advice
- Support strategies (for learning and assessments).

Opening Hours

8.30am-4.30pm (Monday-Friday)

Telephone: (03) 325 3835

Email: healthsupport@lincoln.ac.nz

www.lincoln.ac.nz

Location: Ellesmere Junction Road end of Hudson Building
